

## Letter from Alexander Graham Bell to Sarah Fuller, undated

487 Dear Miss Fuller:—

Many thanks for your note of January 30th., with enclosures which I return. Glad to see that you are appreciated by such a man as Prof. Hanus. I agree with Miss Adams that “praise from Caesar is praise indeed. I return Miss Adams note.

Your ten minutes paper on the “Deaf Child in His Home” is a little gem in its way. I presume that it will be published by the Home Congress Meeting. Why not have enough reprints struck off for you in pamphlet form to present to members of the different Parents Societies. If it is not to be published by the Home Congress, why shouldn't you read it before your Parents Association, changing it sufficiently to make it a new paper, and then have the Parents Association print enough copies to supply the members of other Parents Associations, or if not printed, send a manuscript copy of the paper to be read at a meeting of the Chicago Association, Oskosh Association &c. I think your Association should encourage the preparation of papers upon the deaf child in his home, and see that copies of all papers read are sent to the other Associations, with a request for a return in kind. I return the paper.

I am too busy preparing for to go to Connecticut to help the Mystic School to write about other matters just now.

Yours truly, Alexander Graham Bell 2 Enclosures.
